

Intern Strategic Design

Location: Vienna

Start date: as of now

ABOUT N+P DESIGN

N+P Design is a strategic design agency with offices in Munich and Vienna. We specialize in product, digital, and service design, working globally to create high-tech products and exceptional user experiences. Our projects span public mobility, long-lasting capital goods, premium consumer products, and medical equipment. At N+P, we challenge established norms, create new concepts, and shape visionary solutions for the future.

WHAT WE OFFER

During your internship, you will support our team in an exciting project that explores intermodal mobility with a focus on rail and aviation. Your tasks will include conducting user and benchmark research, scouting emerging technologies, and contributing to the development of innovative solutions that enable seamless door-to-door travel experiences.

- **Active involvement:** Play an integral part in our design team and have the opportunity to take ownership from day one.
- **Hands-on learning:** Take part in integrating product, digital, and service design into cohesive solutions.
- **Mentorship:** Benefit from hands-on guidance and feedback from senior designers and the team.
- **A collaborative culture:** Join a young, dynamic team that values open communication and flat hierarchies.
- **Social environment:** Enjoy team-building events, spontaneous after-work gatherings, and a friendly office atmosphere.
- **Convenient location:** Work in our cosy office with a beautiful garden, located near Haus des Meeres in the heart of Vienna.

YOUR PROFILE

You are studying design and want to gain your first real hands-on experience in a renowned design studio. What you should bring:

- Your internship is compulsory (6 months)
- You study a Product or Strategic Design related course with a keen interest in research
- Analytical and methodical thinking paired with an interest for process design
- Team player with high curiosity and willingness to learn and grow
- Proficiency in Adobe CC, Figma and other prototyping tools
- Strong verbal and written communication skills in German and English
